

INTIMATE Occasions

SAPPHO GRIFFIN
DENISE COULTER

You'll recognize the sense of worldly sophistication in the handmade layers of this dining room. Visualize those perfect evenings around a table laid for friends, where compelling conversation spill into the early hours. It's a stimulating space for minds and appetites, striking just the right chords to nourish the spirit. Hand-painted chinoiserie "wallpaper" sets the tone, while richly stained and painted furniture evoke different eras. Bold fixtures and accessories enliven and refresh the experience. This dining space is artfully alive and cultivated.
